

# Wuhan Photography Boards: requirement against final design

The proposal asks for nine panels, each 1.5 m × 1.5 m *or similar convenient size for brick layout*, all based on a 215 × 65 mm slip. Every board below is dimensioned to close on whole and half slips at its own joint width, so the sizes differ from 1.5 m and from each other. Joint widths are noted only where they changed.

| #  | PROPOSAL REQUIREMENT                                                                                                                                   | PROPOSAL MOCK-UP                                                                     | OUR FINAL DESIGN                                                                      | ACTUAL SIZE AND CHANGES                                                |
